SUMMARY

Senior Software Engineer and Team Lead with 8+ years of experience in building scalable full-stack applications and cross-platform mobile solutions. Specialized in .NET Core, React, React Native and cloud-based architectures, with a strong background in designing end-to-end systems and leading development teams. Proven track record of delivering high-quality software, driving technical decisions, and improving team productivity. Passionate about clean architecture, performance optimization, and building data-driven systems.

EDUCATION

- **Hacettepe University**, B.Sc. in Computer Engineering – Ankara, Türkiye – Sep. 2010 – July 2015

EXPERIENCE

- **Software Development Team Lead**, Bitsody Software – Feb. 2022 – Present
 - Design and develop full-stack web applications using **.NET Core, React, and MSSQL**
 - Previously built applications using **React, Next.js, and MongoDB** in early project phases
 - Lead a software development team focusing on scalable architectures
 - Drive technical decisions, architecture design, and code quality
 - Mentor team members and improve team productivity
 - Contribute actively to development alongside leadership responsibilities
- **Mobile Development Team Lead**, OmegaBigData Software – Dec. 2018 – Nov. 2021
 - Led the development of cross-platform mobile applications using **React Native and Expo**
 - Founded and scaled a mobile application development team from scratch
 - Managed team workflows, task distribution, and performance optimization
 - Ensured project delivery aligned with business requirements and deadlines
 - Improved team efficiency by establishing development standards and processes
- **Software Developer**, OmegaBigData Software – Dec. 2015 – Dec. 2018
 - Built cross-platform mobile applications using **Xamarin.Forms, React Native, Expo**
 - Delivered and published applications on both **iOS** and **Android** platforms

PROJECTS

- **Orbital Kitchens** | *.NET Core, MongoDB, React, Azure, Redis, RabbitMQ, Hangfire*
 - Developed a centralized system for kitchen operations including inventory, recipes, and delivery optimization
 - Designed modular systems such as **KDS, Stock Management, and Delivery Estimation** modules
 - Delivered for a **US-based kitchen company (Orbital Kitchens)**
 - Collaborated with cross-functional teams across **US, India and Europe**
- **Smart Asakai** | *.NET Core, MongoDB, MSSQL, React, Plotly*
 - Built a data analytics platform to track **OHS, Quality, Delivery, and Sales** metrics
 - Implemented dashboards to provide actionable insights for operational efficiency
 - Adopted by companies such as **Saueressig**
- **KSM** | *.NET Core, Blazor, MSSQL*
 - Developed an end-to-end order management system from intake to production

- Enabled cross-department workflows across **Repro**, **Quality**, and **Production**
- Implemented role-based workflows and process tracking
- Adopted by companies such as **Saueressig**
- **White Label Mobile Apps** | *React Native*
 - Developed and published multiple white-label mobile applications on **iOS** and **Android**
 - Designed reusable architecture for multi-client deployments
- **Empactivo Mobile** | *React Native*
 - Developed an employee engagement platform for internal communication and motivation
 - Implemented features such as recognition system, point-based rewards, and gift ordering
 - Enabled users to earn and redeem points through social interactions
 - Adopted by companies such as **Kordsa**, **VitrA Karo**, **DeFacto**, **Lactalis**, and **Nissan**
- **Other Projects**
 - Developed web and mobile applications across recruitment, e-commerce, and engagement domains
 - Projects include: **DigitalWisers**, **Ores Auto Gallery**, **Demirclub**, **Seturday**, **Apollo**, **Atakule**, **Fonbulucu**

TECHNICAL SKILLS

- **Languages:** C#, TypeScript, JavaScript, SQL
- **Backend:** .NET Core, ASP.NET Core, REST APIs, SignalR
- **Frontend:** React, Vue, Next.js, Vite, MUI, HTML, CSS
- **Mobile:** React Native, Expo
- **Databases:** MSSQL, MongoDB, Snowflake, SQLite
- **Cloud & DevOps:** Azure, Docker, Git, pnpm
- **Messaging & Caching:** Redis, RabbitMQ
- **Architecture & Practices:** Clean Architecture, JWT Authentication, On-Premise Deployment, Hangfire, 3rd Party Integrations

LANGUAGES

- **Turkish:** Native
- **English:** Professional Working Proficiency
